

Telecel® Heater Kit BSE-BXHK48DC-200-7 48V DC Accessory Heater Kit

Overview

48V DC / 200 W heater mat for use with the Telecel Model BSE24-7B60-HC batteries installed in Commscope Fuel cells utilizing Delta rectifiers.

Features:

- ❖ 48 volt, 220 watt (0.6 watts/in²)
- ❖ 20" x 20" x 1/16" thick
- ❖ 6' bulk HPN cord
- ❖ 85° F control thermostat mounted in line-cord

Safety:

- ❖ 84° C thermal cutoff
- ❖ 100° F heater sensing high-limit thermostat
- ❖ Fuse & thermostat mounted in an overmold bonded to heater

Specifications	
Part #:	BSE-BXHK48DC-200-7
Size	20" x 20" x 1/16" (508 mm x 508 mm x 1.6 mm)
Wattage	200 watt (0.6 watts/in ²)
Maximum Operating Current	7A
Operating Voltage (DC)	48V (30 VDC to 59 VDC)
Cord Length (no plug)	6 feet (1.8 m)
Cord Size	18 / 2

Specifications are subject to change without notice

NOTE: Kits include mat heater and insulation wrap for (2) 60ah batteries (1 string)
